## Dillon and O'Brien Both Locked Up.

## QUITE A SENSATION IN DUBLIN.

**The Cargoes on Which the Authorities Refused to Confiscate May Some Day Prove Valuable to Gold Seekers—Various Other Foreign News as Telegraphed Direct from New York.**

DUBLIN, Sept. 19.—Mr. John Dillon, member of parliament, and Mr. William O'Brien were arrested Wednesday for their recent utterances in Ireland. The former was taken into custody at his residence near Dublin and immediately escorted to the railroad station where he was placed on a special train enroute to Tipperary. He was accompanied by a large military escort. O'Brien was taken into custody at Glengariff and conveyed to Cork. Warrants of arrest for Patrick O'Brien, Commoners James Cordon and David Sheehy, and Rev. David Humphreys, of Tipperary, have been issued.

A great sensation has been caused by the arrests of Messrs. Dillon and O'Brien. Later particulars are to the effect that Mr. Dillon, when arrested, was in his uncle's house at Ballybrack. The police inspector, accompanied by two constables, entered without knocking or notice, and rudely ordered Mr. Dillon to accompany him. The latter asked for the inspector's authority, whereupon the officer produced his warrant, accusing Mr. Dillon of inciting the tenants of Smith-Barry in his recent speech at New Tippepary not to pay their rents.

Without waiting for Mr. Dillon to take a change of clothing, the police hurried him to a car, and took him to Dublin and thence to Tipperary, to be arraigned before Col. Carroll, the magistrate whom Dillon, a few weeks ago, most severely denounced in a speech in parliament. Mr. O'Brien was taken in custody at the Glengariff hotel. His wife was with him, just as she was with him recently when a writ-server served on Mr. O'Brien a demand from Lord Salisbury for 1,600 pounds costs in Mr. O'Brien's libel suit against the premier.

Without calling him to one side, the officer presented his warrant, and told Mr. O'Brien to come along. "Another attempt to keep me from telling Americans the truth about Ireland," said Mr. O'Brien as he accompanied the officers. The charge against Mr. O'Brien was the same as against Mr. Dillon, that of inciting tenants not to pay rent, and of advocating the boycott in speeches at Limerick and New Tipperary.

A warrant is also out for Mr. Dalton, and the police are watching the league rooms in Dublin. It is believed that warrants are out for many persons connected with the league, and that the government has determined, during the recess of parliament, to crush it out, if possible, all opposition to its policy in Ireland. Lord Salisbury is said to be deeply incensed against Mr. O'Brien, who, in his Limerick speech called Lord Salisbury a libeller and blackmailer.

Much excitement prevails, both in Ireland and England, over the arrests, and the opinion is generally expressed that the object of the government is to prevent Messrs. Dillon and O'Brien from going on their tour, and gaining American sympathy and contributions for the Irish cause.

### Gloomy for the Strikers.

MELBOURNE, Sept. 19.—A deputation from a number of county and municipal councils waited upon the minister of commerce yesterday and assured him that they approved the action of the government in the matter of labor strikes. The delegates declared that there were plenty of farmers and others in all parts of the colony who were willing to come to Melbourne and assist in placing commerce on its normal footing. They roundly denounced the course taken by the leaders of the strike. In reply the minister said that the government was prepared to frustrate the strikers' efforts to establish a reign of terror and that if necessary the colonies would combine and take vigorous measures to secure the freedom of labor. The ministers' remarks were much applauded.

The yearly report of the Red Hill criminal reform athletic school shows that 94 per cent. of the cases treated are cured. The object of the institution is to improve the mentality and moral sense of offenders by correcting their physical deficiencies.

The principal German official at Zanzibar, replying to a cable dispatch from the home government on the subject, denies that a proclamation sanctioning slave dealing has been published at Bagamoyo. The false report, he says, was probably circulated by the Arabs.

## HEIN'S CRIME.

**The Coroner Investigating Into the Horrible Tragedy.**

PORTSMOUTH, N. H., Sept. 19.—It has been learned by Coroner Whittier that Fred. H. J. Hein attempted to add to his list of victims his mother-in-law, Mrs. Lucas, whom he never liked. It is known that he went three times to her house in Hill street, near his own, and tried to force an entrance, but failed to do so, because Mrs. Lucas alarmed by his frequent threats to take her life, always kept her door locked. Mrs. Lucas told a reporter that Hein was a perfect brute; that his own mother, whom he had shamefully abused, warned Alice Lucas not to marry him; that although he never struck his wife, he frequently threatened her life; that he denied her proper clothing and pocket money; that he had kept a mistress, by whom he had a child, and that his cruelties forced his wife to leave him. The talk against her daughter's character, Mrs. Lucas says, is untrue.

On the other hand, Hein is highly spoken of by those who knew him as being a sober, industrious fellow, who was made desperate by his wife's unfaithfulness.

The inquest was continued. Arthur Walker, Officer Quinn and Daniel Casey testified to hearing pistol shots; going to the Hein house and finding the dead and wounded children, and that one of the girls had said that she and her sister had been shot by their father.

The second daughter, Maude, and Lucy Taylor, the first victim of Hein's fury, are both in a critical condition, and it is feared they cannot live more than a few hours.

How wretched is the man who has fallen a victim to Biliousness, Indigestion, Sick Headache, or diseased Liver, with all the horrible attendants. Look upon the picture. Of course; but at the same time feel assured that in a measure he is to blame for the bad state into which he has fallen. ### New York's Flower Market.

New York is soon to have what almost every European city has—a market for cut flowers that ladies may visit without seeing or meeting with anything that is disagreeable. The idea of having a general flower market at Union square has by no means been abandoned, still the project is at a stand still for the present, and no active steps will be taken in the matter for some months yet. In the meantime the Market Florists' association of New York is making arrangements for a temporary market for cut flowers, which will be situated near Union square, and which will be opened early in September.

Hitherto the market for cut flowers has been situated at the foot of Thirty-fourth street, East river. No woman would care to visit the neighborhood, and it was unattractive in every sense. In Paris it is quite the proper thing to form parties to visit the flower market in the early morning.

For obvious reasons parties of that kind are not formed in New York. The regular flower market at the foot of Canal street and North river and the cut flower market at Thirty-fourth street are not attractive early in the morning or late at night. The beauty of the flowers is more than offset by the lack of beauty in their surroundings.—New York Mail and Express.

### Some Old Erie Engineers.

There are seventeen members of the Port Jervis Lodge of the Brotherhood of Locomotive Engineers who have been employed on the Erie railroad for periods of from twenty-five to thirty-five consecutive years, the average term of service being within a fraction of thirty years. The oldest in continuous service are H. L. Carlough and S. A. Ronk, both of whom began running on the road Jan. 1, 1855.

The oldest in actual length of service is Benjamin Hoffner, who entered the employ of the company as an engineer in 1848, but was off the road from 1854 to 1858. Mr. Hoffner is still doing duty at 70 years of age, and in the thirty-eighth year of his work on the road as engineer of the train between Port Jervis and Otisville.

The seventeen veterans referred to in the order of seniority of continuous service are H. L. Carlough, S. A. ### Bathed in Alcohol and Took Fire.

ST. JOSEPH, Mo., Sept. 19.—William Hitt, a sufferer from rheumatism, was advised by friends to take a sponge bath in alcohol and dry himself with artificial heat. He took the bath and then stood near an open stove to dry off. The alcohol took fire and in a second the man's body was enveloped in flames. He was so seriously burned that he will die.

In March of this year a heavy gale blew for three days and nights at Scilly, washing out blocks of limestone [illegible] of three and five tons weight as easily as if they had been empty egg shells, [illegible] throwing them entirely over the breakwater at Plymouth. [illegible] blocks were washed [illegible] the inclined beach after being [illegible] over the breakwater and scattered about in various directions.

One block of limestone, estimated to be of fifteen tons weight, was moved over 150 feet from a place in the surf where it had been firmly grounded since 1881, it having first been rolled in sight by the awful gale of the "Windy Christmas" of that year. This is quite a high sea record for 1890, showing that the gale of March 3 was the worst known on the Scottish coast for 194 years.—Chicago Times.

### Black Hills Tin Mines.

Joseph H[illegible], editor of The Tin Miner, of Hill City, S. D., in speaking of the tin mines at that place, says: "Hill City is situated exactly in the center of the tin belt, which is in the shape of a half moon, and is about thirty miles in length and three miles wide. We are twenty-eight miles from Rapid City, the nearest railroad point.

"The richness of these mines is simply wonderful, and one who has not been there can hardly believe it, but I state a fact when I tell you that there is enough tin on the dumps and in sight now to supply the United States for five years. As soon as the big mill is started at Hill City we shall then be able to ship the tin out in bars. Some of these mines have been pushed down 240 feet, and the deeper the richer.

"The vein is eight feet thick and dips toward the east at an angle of about 45 degs. Some of the mines average 27½ per cent. of metallic tin, and the whole ledge averages 10 per cent. The capitalists interested are mostly New York and English men. The larger part of the capital is furnished by New York men."

### A Kite Story.

Some fishermen engaged in Belfast lough recently picked up a very large seagull which was seen approaching the boat with wings outspread, floating on the water, but quite dead. The men were puzzled to account for the progress it made through the water, as it went faster than the boat; but as it came near it was found that, wound securely round the body and under the wings, was a string or cordage, which on closer examination they discovered was attached to a large paper kite then flying above them at a considerable height. The kite furnished the propelling power. The bird had evidently, while flying at Belfast, got entangled in the string of a boy's kite, had been unable to extricate itself, and taking to the sea had been drowned in its efforts to obtain freedom.—Exchange.

### A New Refuge for Paris.

By the death of M. Pruvot, a landed proprietor, who lived in the Boulevard de Courcelles, and left behind him a fortune of [illegible], the city of Paris has received a legacy of nearly £40,000. The testator left instructions that the chief portion of this amount is to be used for the construction and maintenance of a night shelter for the Homeless and [illegible] in the Seventeenth Arrondissement," which includes the districts of the Ternes, the Plaine-Monceau, the Batignolles and the Epinettes. ### He Leaned on His Luck.

"I had a most extraordinary piece of luck last Sunday," remarked a young broker, "that I have been thanking my kind providence ever since. I invited a girl cousin to go down to Long Beach for the afternoon, take supper there and return in the early evening. After we started I discovered that I had somehow brought only $2.50 with me. I had one railroad ticket, but with another required, two suppers, car fares and ferriage, figure as I wanted, I was just about twenty cents short. It was one of those horrible cases of smiling and joking without, and a sort of whited sepulcher within, wondering wildly how to pull through.

"We reached the beach, and I was revolving the plan of throwing myself on the mercy of the clerk and offering a check, when we stopped in our stroll along shore to examine some shells and seaweed, when blamed if lying right at my feet wasn't thirty cents—a quarter and a nickel.

"I stooped down and picked them up in a hurry.

"'What have you found?' asked my companion.

"'A little silver,' I said carelessly.

"'Oh, how lovely. How much?'

"'Only thirty cents,' I said, as though I was disappointed at not finding a lot of it. I wasn't disappointed. Never was so happy in my life. It was just enough to pull me through, and I reached home with ten cents, but I tell you it don't do to lean on your luck like that every day."—New York Tribune.

### Lawlessness North and South.

There is a familiar tone in the dispatches which tell of the efforts of White Caps near Bangor to tar and feather somebody. "The sympathy of the people is so strongly with them," the reports say, "that the authorities will make no efforts whatever to prevent the carrying out of their threats."

Such news sometimes comes from the south, and then it is generally seized upon by papers hostile to that sunny section as a text to point the moral that life and property are not safe down there, and that the authorities are in sympathy with the law breakers to such an extent that crime goes unpunished.

Up in Maine, a good, respectable New England state, of course it's different. The lawbreakers up there wear white caps, while those down south wear black ones.

Come, now, let's be fair. Shouldn't these little episodes in New England life teach us that human nature is very much the same on both sides of Mason and Dixon's line? Wherefore pluck out the beam that is in the eye of our southern neighbors while we still have quite a sizable mote bothering our own eyes.—Boston Globe.

### A Wild Cuban.

The most interesting inmate of Bloomingdale Insane asylum, however, is a young Cuban, whose family is an enormously wealthy one in the city of Cardenas, Cuba. He has been in the institution a year, and has improved so much that his family intend to take him home shortly.

He is a medium sized man of 23 years, with soft brown eyes, curly brown hair and a beautifully clear complexion. He does not speak a word of English, but converses fluently in Spanish and French.

When he first entered the place he was wild, and severely thrashed several of the attendants. The minute they turned their eyes away from him he would pounce upon them with the agility and ferocity of a tiger, and punch [illegible] them until he was overpowered. Now he has the quietest and [illegible] manners in the world, and receives all visitors with a courtly hospitality.—New York Journal.

### On an Ocean Racer.

An Ohio clergyman [illegible] writes of his experience on [illegible]: "I have [illegible] steamer. [illegible] of the Teutonic, and [illegible] tained was terrible. [illegible] the heat was so oppressive in the [illegible] that everybody had to go on deck, and it was found that the great speed had overheated the machinery; but there was no check until Sunday, when the passengers became alarmed, and the engines were slowed down to allow the machinery to cool. If the speed had been kept up for a few hours the vessel, with all on board, would have gone to the bottom."

### Fighting a Wildcat.

George A. Taylor, an express messenger, had a frightful experience the other night on his run from Kansas City to St. Louis. Among the packages intrusted to his care was a box containing two wildcats. One of them got out of the box and sprang at Taylor. The messenger picked up a piece of tarpaulin, which he held in front of him and its claws became fastened in the canvas. Taylor kicked the brute [illegible] it returned to the attack again and again. At last he threw the canvas over the cat, and then [illegible] kicked it into insensibility.—Exchange.

### Baltimore's Oyster Season.

Oysters will not be plentiful until the middle of October, when the dredging season opens and the great oyster fleet, consisting of large schooners, pungies, bugeyes, etc., begins operations. A rushing business is then [illegible] at the retail wharves, and the harbor front is alive with oyster merchants and men seeking employment. The [illegible] now is well filled with craft [illegible] description waiting the opening of the dredging season, and the prospects are very bright.—Baltimore News.

Johnny—Yessir.

Foreman—It's a good thing there's one newspaper man in the shop, Mr. Bowler, with [illegible] numbers running nearly every [illegible].

Night Editor—Much obliged, Alex. It does seem as if I was the only man with any news sense left in the shop. Have a cigarette. Start the strike on the first page and let it break over. Take the fight out of second page and put it on the ninth. [illegible]

Foreman (to assistant)—What is this Hickory [illegible] Daffodil Cream ad. doing on the third page?

Assistant Foreman—Marked there.

# Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

—Mrs. T. P. Wallace and Mrs. A. H. Kling were attending the State Fair today.

—James McDonald, living east of town, who has been sick for some time, is rapidly recovering.

—Quite a change has been made among Erie operators here. Art Monroe takes the lower yard office during the day, and B. Wagstaff will manipulate the wires at Monroe's old position. Other changes are likely to follow.

—George Guy, manager of the old A. P. Henderson barber shop, announces that the shop is better prepared than ever to accommodate its patrons with first-class workmen. T. P. Cooper is the latest addition to the force, and "Shorty's" old customers are requested to call.

—The report from this district to the census bureau gives Marion's population as being 8,[illegible], while that of Delaware is 8202. According to the report Marion also has 11 more people than Lancaster. The population of Marion county is given as 24,675, a gain of 4110 in ten years, while a number of other counties have lost in population. It shows that Marion's increase is not made at the expense of the country districts.

### OBITUARY

AKRON—On Friday morning, August 29, 1890, Eva Fern, the youngest daughter of Mrs. Emma A. and Jacob Akron, of Waldo, Marion county, O., aged 2 years, 2 months and 22 days.

Death was the result of an illness of one week with that terrible disease, scarlet fever, which is to be dreaded by parents more than any other disease to which children are subject. Little Fern was one of the brightest and most intelligent of her age. Quick in thought, and always ready to talk, she was the pet and beloved of all who knew her. Her suffering during her short illness was intense, yet she bore all with patience, and her last words were "I want mamma." Her mamma quickly obeyed the call, but ere she had reached the bedside of the little pet the spirit was leaving the tenament of clay. Little Fern was not dead, but sweetly sleeping on the bosom of Him who said "Suffer little children to come unto me, and forbid them not, for of such is the kingdom of God." She has gone and taken possession of that Kingdom. Her parents cannot bring her back, but they can go to her. Their loss is her eternal gain. May God's blessing rest upon them, and the comforting influence of the Holy Spirit, under this dark cloud of Providence, enable them to say, "Jesus doeth all things well." W. C. S.

Capt. Tillman, the leader of the farmers' movement in South Carolina, owns 1,800 acres of land, runs twenty plows and has a dairy supplied by forty thoroughbred Jersey cows.

Frederick H. Hassam, the antiquarian, of New York, is to make ex-President Cleveland a present of Daniel Webster's rod, reel, wicker flask and fishing hat.

### Blunted His Dignity.

Fountaine, of Narford, is a name of worthy associations in the minds of Norfolk men, and one which must be familiar to all readers of Swift's correspondence, but its present holder's latest achievement has certainly not added anything to its luster. Mr. Fountaine, of Narford Hall, is a justice of the peace, deputy lieutenant and master of the West Norfolk foxhounds, and he appears to have been under the impression that these accumulated dignities entitled him to the privilege of having an express train stopped whenever he pleased for his especial convenience.

The station master at the little station of Eastwinch not seeing things in this light, Mr. Fountaine stepped out at once upon the four foot way, and by gesticulating and throwing his arms aloft contrived to stop the train for himself. The driver not unnaturally inferred that something serious was the matter until he pulled up, on which Mr. Fountaine coolly climbed into a first class carriage and gave the word to proceed. This curious escapade has imposed on the magistrates of the Swaffham quarter sessions the painful duty of fining a brother justice and deputy lieutenant £25, and binding him over to keep the peace. The punishment cannot be said to err on the side of severity.—London News.

### A Game Old Hen.

A game hen died on R. W. Gamble's place at Cuthbert, Ga., a few days ago. This hen had reached the age of 14 years, lacking only a few weeks. She continued to lay eggs until a year before she died. For several months she had been totally blind, but was fed and watered regularly by Miss Mary Gamble. In 1876, when Mr. Gamble moved to Macon, this hen was carried there and brought back when he returned to Cuthbert. In the spring of 1882, when the cyclone struck Mr. Gamble's place and tore things up, this old hen was setting in a box on the kitchen hearth. The kitchen was blown away, the chimney was missing, but the hearth remained, and there sat the old hen in her box, as composed as though nothing had happened.—Chicago Herald.

### In an Indian Mound.

Dr. J. F. Snyder, a Virginia, Ills., archaeologist, has just returned home from Schuyler county, Ills., where he opened an Indian mound. The corpse was in the tumulus of a chief. It had been laid with the head to the east. On the forehead of the decayed skeleton was found a crescent shaped ornament of thin, hammered copper. On the breast had been placed a large sheet of mica that no doubt had served as a mirror. On one side of the skull was a small pottery vase of peculiar form. In one hand was a small stone ax and in the other several arrows and spearheads of flint, a few bone awls and fragments of a large sea shell.—Chicago Herald.

### [illegible]

Do not take crackers on a picnic. They are conveniently handled, but are very apt to provoke thirst and fill up the stomach in an unsatisfactory way. It is scarcely necessary to add a caution against indulging in peanuts or candies on a picnic. Sponge cake and mint drops are recommended if the picknickers crave something sweet. The boxes of "square" Chylong ginger or the long, crystallized "thumbs" are dainties particularly acceptable in hot weather, and not likely to upset the digestion. If the party is large it can arrange for the transportation of a block of ice, wrapped first in newspaper and with an outer covering of flannel.—Philadelphia Ledger.

### Girls on Race Horses.

John C. Moore, a rancher near Moore Station, permitted two of his daughters to ride a couple of race horses he owns, one of them, Gold Dust, being well known for speed. The girls rode with [illegible] only, but the horses became unmanageable. Being two of them and supposing themselves matched for a race, the high bred animals dashed away with their inexperienced riders. The girls were soon thrown off and dragged a short distance. One had her arm broken, and the other was injured internally.—Chico (Cal.) Chronicle.

### Two Sharks.

A Hazelton lawyer went into the surf at Cape May recently and encountered a big shark. Their eyes met for an instant in what seemed a friendly recognition, and then each went his way.—Hazelton (Pa.) Sentinel.

The cuttle fish, which, among other strange things, always walks with its head downward, does not chew its food at all, but masticates with its gizzard.

There is a negro living in Scriven county, Ga., whose home is a huge log. This log is twenty feet long and five feet in diameter. It is divided into three apartments, one of which is occupied by the proprietor's three hogs.

Warmth and light are very favorable to brightness and variety of hue in fish. The absence of these accounts for the generally somber appearance of the fish of the circumpolar regions and those living at considerable depths.

One of the standing properties in the prison of Uskub, Macedonia, is a collection of large ants. Fifty ants placed on the body of a man chained to the floor, so that he can't move limb or head, will cause as extreme torture as can be devised.

The following notice is posted on the main street at Athena, Ore.: "To my neighbors: If my spring chickens are disturbing your garden kill them and eat them. Don't pile them out in the alley to become a nuisance. John Edington."

Nearly $30,000 worth of half franc pieces was found in the personal estate of M. Durand, a rich solicitor, who died recently in Paris. It is said that this was M. Durand's stock of small coin from which he daily gave large sums to beggars in the streets.

A Pittsfield hardware dealer tells of a man who entered his store and asked to look at some nippers. Some were shown him, whereupon he calmly affixed a pair to one of his teeth, pulled the molar from his jaw, laid it with the nippers on the counter and asked the bill.

### DAUGHTERS OF EVE.

Theodore Tilton's wife lives with a married daughter in Chicago.

Mrs. Anna A. De Barr has received a license as mechanical engineer from the Chicago board of engineers.

The Duchess of Marlborough, late Mrs. Hammersley, of New York, believes in the Banting system for reducing avoirdupois.

Lady Monckton is about to start as a house decorator and furnisher in London. She is said to be a smart business woman.

Miss Minnie Trueblood, president of the Equal Suffrage association, of Kokomo, Ind., is one of the chief dry goods merchants of that city.

Mrs. Rudson Reed and her sister, Miss Cox, are the most famous English yachtswomen. They sail their own boats and in all sorts of weather.

Nellie Bly has made an arrangement with one of the publishers of the east to write serials for three years. The first year she gets $10,000, the second and third $15,000 each, and no rebate.

Victor Hugo's granddaughter, Jeanne, is a stylish and pretty blonde, who was the idol of the great novelist in his declining years. She is 20 years old and has already had many social triumphs.

Sister Rose Gertrude, the young English nurse who created such a sensation a few months ago by volunteering to go to the Molokai leper station, has given up the work because she is displeased with the local management of it.

Miss Concordia Lofving, the Swedish authoress, is vice president of the Society for the Promotion of Good, whose aim is to insure, by the formation of agricultural colonies, the physical and moral welfare of outcast and uncared for children.

### TURF NOTES.

Ormonde, the great English race horse, is now the property of Baron Hirsch.

The old pacer Jewett, long a familiar figure at free-for-all pacing contests, has retired from the turf.

The Duke of Portland won £73,000 in stakes in 1889. The duke owns St. Serf, Memoir and Donovan.

Sunol was foaled in 1885. As a yearling she did not give great promise. It was in her 2-year-old form that she began to be looked on as the coming world beater.

Lord Randolph Churchill is about as famous as a turfman as he is as a legislator. His chestnut colt Inverness won the 1890 Devonshire nursery handicap of 1,000 sovereigns.

The report that Roy Wilkes had broken Maud S.'s trotting record by doing a mile in 2:08¾ at Independence, Ia., would have been correct if Roy had only been a trotter instead of a pacer.

Moore, the colored boy who rode Tea Tray to victory at the Monmouth handicap on the occasion of Isaac Murphy's memorable milk punch, is looked upon as one of the turf's most promising young jockeys.

Potomac, the winner of the $70,000 Futurity stakes for 1890 at Sheepshead Bay, belongs to August Belmont's stud, and is a chestnut colt sixteen hands high. Three of the little legs that carried him to victory are white.

In 1885 Maud S. trotted in 2:08¾, and then the horsemen claimed that all the horses that ever would be produced would not equal, not to say beat, that mark. For five years it has stood against the attempts of all the fast horses in the country.

### MOURNING COLORS.

The mourning color in Spain was white until changed by the laws of 1498.

In Turkey at the present day the color that is used for mourning purposes is violet.

In China when one desires to don the mourning color he puts on robes of pure white.

In Egypt the color that indicates that the person wearing it is in deep mourning is yellow.

In America, as in London, black is the color that indicates the death of a relative or dear friend.

A somber brown is used by the people of Ethiopia to show their respect to the memory of the dead.

In Rome males wore black for mourning, while the women indicated their grief by wearing white garments.

### Buying Christmas Presents.

"I've been about among the summer shops all the morning," said one lady to another on the piazza of a Saratoga hotel recently, "and I have picked up quite an accumulation of Christmas gifts. I always buy them at this time," she went on, "and put them away until just before the holidays, when I sort them out. In that way I avoid any rush and fatigue at the last moment." Three or four of her companions agreed with her, but one, a vivacious young woman, dissented emphatically.

"I call that dreadful," she announced. "Fancy selecting Christmas presents in cold blood as it were. I could never do it. I should be guided by economy and prudence, I know, and pull my purse strings together. I never buy a single present till the genuine Christmas fever is on me; till the shops are gay with pretty things and crowded with shoppers. Then I join the throng and share the infatuation. I rush right and left all day long and am in an agony of suspense and indecision; what I want finally comes to me by inspiration, and then it is such a satisfaction to have settled upon it.

"Why, half the joy of the season would be lost to me without that delightful rush and bustle and worry. It seems to me almost sacrilegious to take Christmas time by the forelock. I positively could not do it." All of which goes to show how complex and intricate a thing is a woman's method of reasoning.—New York Times.

### The Waste at a Summer Hotel.

In accordance with the long established and destructive idea which has prevailed in the best hotels of the United States from time immemorial, at least twice as much food is served as the guest can eat. The result is that at least fifty barrels of waste are carted away from this hotel each day by a man employed for that purpose. In the rush consequent upon the feeding of so many persons silverware and other articles in use in the dining rooms are constantly being thrown into the receptacles for this waste material, and consequently the services of one man are required to search and rescue these utensils.

At a certain seaside hotel 3,000 persons can be fed at one time. One Saturday and Sunday nearly 20,000 persons were catered to between the hours of 11:30 a. m. and 1 p. m. Judging from the amount of food devoured, every man, woman and child visiting the beach that day must have been hungry. The value of the silverware and crockery used by this immense crowd amounted in the aggregate to $30,000. Each one required three napkins, one for personal use and the other two for the waiter's use. Five plates were used with each order, no matter how trivial, which ran the total number of pieces of crockery up to 75,000.—New York World.

### Millions of Crickets.

For the past three years about the middle of August Dallas was visited by a flight of small hardshell beetles, which at night would strew themselves over the sidewalks and occasionally crawl down the backs of passersby. This year there has been a change in the programme, and instead of beetles there has come a visitation of crickets of the singing variety, which has been immortalized by the poet who wrote "The Cricket on the Hearth." A single cricket hidden away behind a large firebrick occasionally touches a tender chord, but when the horny looking things cluster by millions, frying in the electric lights and crawling over the sidewalks, the idea of the poetic gives way to that of the hideous. The creatures seemed to descend from the clouds, as if attracted by the electric lights while migrating in the upper regions of the atmosphere. The dip of their descent was toward the south, indicating that they came from the north.—Dallas News.

### His Arm Torn Off.

An employe in a Cincinnati brewery met with a frightful accident a few days ago. An endless belt, in which are large hooks for holding the beer kegs, runs up and down through the hatchway. He was working on the first floor, and there being no lights burning he walked into the shaft. He fell about seven feet, and his arm catching on one of the hooks the member was torn open from the shoulder to the wrist, and he was held there for fifteen minutes before his fellow workmen succeeded in releasing him. He received a terrible shock, but it is thought that only for catching on the hook he would have been dashed to death on the cellar floor eighteen feet below.—Philadelphia Ledger.

### A Daring Photographer.

A daring feat in photography was performed last week by George H. Baily, of Boston. He succeeded in getting a fine negative of a blast of a ledge near Savin Hill, one of the largest on record, in which 250 pounds of dynamite were used. He did it at the risk of being crushed by some huge rock, and moved himself and camera out of the way just as a bowlder several tons in weight was about to land dangerously near him. The picture was taken just as the dust and stones had reached their highest elevation, and is as interesting as it is rare.—Boston Letter.

### Manuscript Kept Ten Years.

Ten years ago the late H. W. Richardson, of The Portland Advertiser, wrote an article on "The Metric System" for Harper's Magazine. It is printed this month. This is a neighborly illustration of the enormous pressure on the pages of our great periodicals, and the small chance of an author's getting into them unless he has first made a great reputation. Harper's would not wait ten years to publish an article by Tolstoi or Stockton.—Lewiston Journal.

### In a New York Boarding House.

The dinner supplied to her household last Sunday by a Lexington avenue landlady was soup and watermelon, and after the meal was over the boarders sat on the front steps and wondered why they had teeth.—New York Tribune.

## THE ARIZONA KICKER.

### Gems of Territory Thought by Way of The Detroit Free Press.

We extract the following from the last issue of The Arizona Kicker:

THEY GOT LEFT.—Feeling the need of a few days' rest from brain work we hied ourselves to Jim's peak last week, to remain about ten days. Soon after supper a stranger approached us and gave us a hint that the boys were planning a serenade, and that we had better have a speech ready.

In this western country some words have a double meaning. A "serenade" may mean sweet, soft music by the band, with a call from a lot of jolly good fellows, or it may mean a visit from the gang who are provided with a rope, but no music. In order to be on the safe side we took up a temporary home in a thicket, and from thence discovered that this was to be a rope serenade. Some of the boys from Johnson's ranch had determined to lynch us as a great moral warning, but while they were hunting for us around the hotel we were meandering through the jack pines and mid night darkness to safer quarters.

In one sense we don't blame the boys so much. An occasional hanging adds zest and gusto to this western life, and it is very rare that the victim's friends can claim that any mistake was made. In another sense the boys are to be blamed for their lack of taste. We have it on good authority that they meant to hang us with an old mule chain. There were thirty of them in the crowd. We make no boasts, but let our readers watch for developments. We'll have sheriffs and detectives here after at least thirty-one of them before the week is out, and then we shall borrow a shotgun and go on a hunt after the odd one.

SOLD AGAIN.—Our esteemed contemporary has made another dismal failure. On Monday he came out in a double leaded two column article on the Wharton shooting case, and tried his best to prove that we had an active hand in it and were responsible for Judge Johnson's death. At the coroner's inquest, held on that same afternoon, Maj. Bliss testified:

"I was sitting at a table in the Red Cross saloon with the editor of The Kicker. We were there to talk over the McKinley bill and to take the initiatory steps toward establishing another Sunday school. Judge Johnson came in. He was pretty drunk. He saw Bob Wharton at a table beyond us and pulled his gun. The editor of The Kicker kindly asked him to put it up, and offered him a year's subscription to the paper to go home and take a nap. The judge refused and pressed forward to get a shot. Next moment Wharton dropped him."

This was the truth and the whole truth, and yet our jealous pated contemporary, hoping he had a hold on us, tried his hardest to make out that but for us there would have been no shooting. We used to refer to him as toothless, knock kneed, bow legged, lop eared, hump backed, white livered, cross eyed and so on. We have a mortgage on his whole outfit and we used to threaten to foreclose on it. We used to meet him on the street and scare him into kneeling down and begging our pardon. We now let him have his own way. Some day we will bury him in our private graveyard—some day when he has tired us completely out.

THEY ARE WRONG.—Those of our citizens who are asserting that our late trouble with the postmaster was caused by jealousy of his place on our part are doing us a grave injustice. True, we were a candidate for postmaster, and true also we are a mighty sight better man for the place than the present incumbent, but we are not jealous.

The trouble began as soon as this man entered the postoffice. He held back our mail and made us weary in many other ways. We pounded him half to death one day and for two months he was a model postmaster. Then he got sassy and shot at us, and we left the bullet in his shoulder. That lasted him until the other day. He then got on his ear and tried to prick us with a bowie knife, and in sheer self defense we shot off a part of his left ear and banged him with the butt of the revolver. It was in the interest of the whole public. He'll be on deck in a week, and for the next three months he'll work like a steer and be as pleasant as peaches.—Detroit Free Press.

### Principle and Principal.

Mrs. du Temps—I don't approve of Mr. Moneybags' suit, my dear. I don't think he is the man for you, for he doesn't seem to have a spark of principle.

Miss du Temps—He has a principal, ma, of $200,000 that yields him 10 per cent. annually. What more do you want?—Lawrence American.

### Hard Lot of the Greenback.

"It's awfully hard," said the five dollar bill, as he was borrowed for the hundredth time, "to go through life entirely a loan."—New York Herald.

### A Very Natural Conclusion.

Uncle Pete (having been landed upside down, and his load strewed for a quarter of a mile along the road)—B'rer Jonsing say w'en he sol' me dat anemil dat he hed one fault, but he couldn't remember w'at it was. I shouldn't be soaprized ef dis was de berry one.—Harper's Weekly.

### The Hale Circle.

The "Hale Circle"—C. L. S. C.—held an adjourned meeting on Thursday evening, at the residence of Mrs. C. F. Seffner, and reorganized for the ensuing year. A lively interest was manifested and all seemed eager for the year's work, as this is the year for the "English course." The following officers were elected:

President—Mrs. W. E. Thomas.
Vice President—Mrs. C. F. Seffner.
Secretary and Treas'r—Miss Hellen Vose.
Teacher in English History and Literature—Mrs. W. E. Thomas.
Teacher Geology—Miss Evalyn Gailey.
Teacher Bible History—Rev. W. E. Thomas.

Adjourned to meet the first Monday evening in October, at the residence of Miss Gailey.

### The W. C. T. U.

How much will it help the cause of Prohibition in Ohio to have a temple in Chicago twelve stories high? How much will it help the work in Marion? How many boys will it save from a drunkard's doom? I am astonished to see members of the W. C. T. U. circulating mite boxes, to collect money to build a "Tower of Babel" in Chicago and allow the work to suffer at home.

MATILDA C. SEARCH,
Pres't Marion County W. C. T. U.

### Attention, Veterans!

All old soldiers who served six months or more in the army, are requested to meet in the Moulder's Hall, Fisher block, Friday night 7:30 o'clock, Sept. 19, 1890. This for the purpose of being installed as the officers. All are elected and the command is organized. Mustering officer from Kenton with his squad will be here on that evening.

By order of committee.

### Barn Burned at LaRue.

A barn belonging to Mrs. Elizabeth Long, a widow lady living about two miles west of LaRue, was totally consumed by fire during Thursday night, together with all the contents, consisting of grain and farming implements. It is thought the loss is fully covered by a $1,500 policy in the Ohio Farmers. The cause of the fire is not known.

### To Dispel Colds,

Headaches and fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys to a healthy activity, without irritating or weakening them, use Syrup of Figs.

### Ministers' Meeting.

The ministers' meeting next Monday will be held in Hotel Marion at 10:30 a.m. A full attendance is desired.

W. E. THOMAS, Sec.

—A. Coe, chief dispatcher of the Lake Shore, and who has been for several months special agent of the New York, Pennsylvania and Ohio railway at Pittsburg, has been appointed assistant superintendent of the Chicago and Erie, and will have charge of the division from Huntington to Chicago. He will enter upon his duties on October 1. Mr. Coe will prove a valuable acquisition to the staff of the Chicago and Erie.
